On a cyclical basis, faculty members in each of these programs perform research and conduct assessments of student learning, curricula, program outcomes, learning resources, student services, and support programs and services to satisfy the requirements of their respective program accrediting bodies. Program managers, appropriate academic dean, and the Vice President for Academic and Student Affairs analyze the outcomes of program accreditation reviews and integrate program improvement actions based on results of these reviews into the College's planning and evaluation processes. For further information on program accreditation review cycles and reports, contact the Ms. Ann A. Cooper, Vice President for Academic and Student Affairs.
